## ***Conflict Free Minerals Policy***

*To realize our social responsibilities and fulfill the international justice, Mag. Layers insists not to use any conflict minerals (e.g. gold, tantalum, tungsten, cobalt, palladium, and tin) during the production process. We also promise :*

- 1. All the suppliers are required to use conflict-free minerals only.*
- 2. Through inquiring, reminding, and requiring, we ask our suppliers to assure that all the metals they used are not from the Congo and the region.*

*President : Alex Hsu*
